CTSC Core Utilization Pilot Grants Competition

The CWRU CTSC has announced the availabi

Searle Scholar Program

The Searle Scholars Program makes grants to support the independent research of exceptional young faculty in the biomedical sciences and chemistry. This opportunity is for assistant professors in a tenure-track appointment pursuing independent research careers in biochemistry, cell biology, genetics, Immunology, neuroscience, pharmacology, and relevant areas in chemistry, medicine, and the biological sciences. As CWRU is limited in the number of proposals it may submit to the 2012 program, an internal review panel will evaluate potential submissions. This internal proposal must be submitted by July 25. For more information and eligibility criteria, please see <http://ora.ra.cwr.edu/ospa/funding/SearleScholars.cfm>.

by sponsored projects, then every minute of your day must be spent on those projects. If you have other duties outside of that project – administrative, instructional, etc. – the amount of time spent outside the project should be estimated and charged elsewhere. It is your responsibility to ensure that your time and effort is reported accurately. If the amount of effort spent on projects changes, please let your department administrator know. An effort distribution report is compiled each month. If you have any questions or would like to review your current distribution, please see your department's administrator.

NIH Update

What's new at the NIH? Below is a summary of important notices and announcements issued over the past month.

- x 2011 Funding Strategy by Institute
 - o Want more information about NIH funding levels by institute? Check out the NIH Extramural Financial Operations site at <http://grants.nih.gov/grants/financial/index.htm#Res11>.

Researcher Profiles

We are continuing to update our online researcher profiles. Please take the time to fill in the new form so it can be posted on the website. If you need a copy of the form, please send an email to dentres@case.edu.

- x Bonus! If you complete the profile and include keywords, we can forward any related funding

Funding Opportunities of Interest

****UPDATED: July 15, 2011 – Letter of Intent (August 15, 2011 – Internal Proposal, November 1, 2011 – External) – Sponsor Hartwell Fndn**

<http://ora.ra.cwru.edu/ospa/funding/hartwell.cfm>

****This entry has been updated to include the due date for the letter of intent****

Individual Biomedical Research Awards

- x Case Western Reserve University has earned a large bid in The Hartwell Foundation's Individual Biomedical Research Awards program. As a result, CWRU is eligible to nominate two faculty members for proposal submission this year. The foundation funds 10 Hartwell Investigat4(ea)1(scn 36 5(l)40.0

July 25, 2011 –

http://www.aae.org/foundation/grants_awards/fdnresearchgrant/

- x Supports research and the genesis of new knowledge in endodontics. To make the best use of funds, the AAE has identified research priorities that can be found on their website. Proposals with budgets over \$25,000 must directly address a priority.

August 31, 2011 – Sponsor: International Team for Implantology Foundation

<http://www.iti.org/?a=1&t=0&y=3001&r=0&n=109&i=&c=25&v=page&o=&s>

- x The ITI Foundation for the Promotion of Implantology supports clinical and laboratory research in implant dentistry and related fields twice a year (deadlines February 27 and August 31). Two grant types are available:
 - o Small Grant: Primarily intended for research proposals submitted by young clinicians who have been working within established groups and wish to expand their scope and level of responsibility. It is also intended for newer investigators who want to establish a track record in implant dentistry. This may be by pursuing their own research interests or by building up their own research group. The grant application should not exceed CHF 50,000 (CHF = Swiss Francs).
 - o Clinical or Laboratory Research Grant (CLRG) Awarded only to researchers or research groups who have established a reputation for credibility and thoroughness in the field as demonstrated by a continuous publication record in peer-reviewed journals. The grant amount may exceed CHF 100,000, but should not be higher than CHF 200,000.

September 1, 2011 – Sponsor American Academy of Pediatric Dentistry

<http://www.aapd.org/foundation/default.asp>

Three research grants (appear to be annual)

- x Access to Care: Matching/Challenge grants of up to \$20,000/year supporting local initiatives that provide dental care to underserved/limited access children.
- x Oral Research Health Grant: Multi-year award (\$100K for 3 years) that can be applied to research initiatives consistent with AAPD research agenda.
- x Future Dental Researcher Fellowship: Support the career of a young investigator focusing their research on the study of dental care programs targeting underserved/limited access children.

September 25, 2011 – Sponsor AHRQ

<http://grants.nih.gov/grants/guide/noticefiles/NOTHS11-013.html>

Health Issues of Minority Women

Note: While this entry lists the R18 mechanism deadline, this announcement is also available under the R01 (October 5) and R03 (October 16) mechanisms

- x AHRQ encourages grant applications that propose research that focuses on minority women in health services research designed to:
 - o Improve clinical practice;
 - o Improve the health care system's ability to provide access to and deliver high quality, high value health care;
 - o Provide policymakers with the ability to assess the impact of system changes on outcomes, quality, access to, cost, and use of health care services

September 30, 2011

– Sponsor DODUSAMRMC

http://www.usamraa.army.mil/pages/baa_forms/index.cfm

Broad Agency Announcement W81XWH-BAA11-1

- x Combat Casualty Care Research Program
 - o Section II.A.2.(4): The CCCRP supports additional aspects of casualty care. These include drug devices, or novel surgical techniques to decontaminate, debride, protect, and stabilize hard and soft tissue wounds to mitigate secondary tissue damage; medical techniques and materiel to replace or regenerate lost tissues; and the prevention and treatment of dental injury or disease in austere environments.
- x Clinical and Rehabilitative Medicine Research Program
 - o

- x The overall goal is to enhance the evaluation of those preparing to practice dentistry or dental hygiene. Expected outcomes include advances in theory, knowledge, or practice of assessment at any point along the continuum of dental education. Up to \$60,000 per year up to 3 years.

October 5, 2011 (and subsequent R01 dates) – Sponsor NIH
<http://grants.nih.gov/grants/guide/pfiles/PA11>

- x R01 Funding Mechanism: AHRQ encourages grant applications that propose research that focuses on the health care for AHRQ priority populations with specific emphasis in the following areas:
 - o Explaining disparities in health care and clinical practice;
 - o Implementation of research and interventions that aim to reduce disparities in priority populations and settings;
 - o Addressing known gaps in research dealing with priority populations;
 - o Development of methods to address the heterogeneity of priority populations, small sample sizes and to improve outcomes for priority populations in AHRQ sponsored research;
 - o Research on cross cutting issues involving multiple priority population groups and settings (for example, disabled children, minority women, rural maternal and child health, etc);
 - o Development of innovative service delivery models for settings in which priority populations receive care.

October

Reducing Health Disparities Among Minority and Underserved Children

- x R21 funding mechanism. eSigned to stimulate research that targets the reduction of health disparities among children. "Health disparities" applies to children who have limited access to resources and privileges that impact their health. Focuses on ethnic and racial minority children and populations of underserved children.

October 16, 2011 (and subsequent R21 dates) – Sponsor NIH
