

Like to reuse these containers? Do not reuse containers that have been used to hold hazardous waste. Reuse of containers is not allowed unless the container is properly cleaned and the label is removed. Reuse of containers is not allowed unless the container is properly cleaned and the label is removed.

Reuse of Metal Solvent Cans and Glass bottles for Hazardous Waste disposal

5-gallon cans and glass bottles

Be clean

You must relabel the container

It is our hope that this process description helps to clarify the process of disposing of glass containers and gives you a little insight into how your actions affect those that must handle your material down stream of your lab.
