

To our northeast Ohio community,

My name is Dr. Scott Simpson. As the newest director of Case Western Reserve University's Anatomical Gift Program, I wanted to reach out to introduce myself and this special program to you.

As a professor in the Department of Anatomy at Case Western Reserve University School of Medicine and embryology to our medical students, that me, I have witnessed first-hand how (with the help of) the Anatomical Gift Program, it is possible.

For over 40 years, the Anatomical Gift Program has provided cadavers, generously donated by those who have passed away, to help train the next generation of healthcare students at Case Western Reserve University, including those in medicine, physician assistant, dental medicine, and graduate programs, to become effective clinicians and

future doctors to learn about human anatomy. These students will use

Just one donation

If you or someone
