

2018 Scholarship in Teaching (SIT) Awardees

The Scholarship in Teaching Awards program is designed to recognize contributions to education, promote teaching as a scholarly activity, and advance careers of medical educators.

Teaching approaches considered scholarly are characterized by 1) purposeful planning, 2) systematic implementation, and 3) reflection and assessment for improvement. The result should be an academic product that is actively shared and that will support the development of a community of teaching scholars.
