

Memo: **Guidelines for a Biomedical Sciences PhD Dissertation**, January 2010
From: Alison Hall
To: PhD students and faculty on thesis committees at the SOM, Graduate Studies

Background: The purpose of this document is to provide general guidance with which to format a

through the internet. The d

Checklist for Faculty Thesis Committee Members

Completion of the dissertation can be an exciting and anxious time for students and faculty alike. In addition, completion of publications, interviews for new positions, and fellowship applications can impose time constraints on the process. Several key steps of the doctoral completion process described online at Graduate Studies require close attention:

1. Student Announces Intent to Graduate.
