

| Topic | Instructor | Date |
|---|------------|---------|
| 1 Introduction/Eye anatomy | Park | 1/14/20 |
| 2 Retina structure and function | Park | 1/16/20 |
| 3 Biophysical studies of visual protein structure | Park | 1/21/20 |
| 4 Cornea structure and function | Taylor | 1/23/20 |
| 5 Ocular immunology | Taylor | 1/28/20 |
| 6 Lens structure and function | Monnier | 1/30/20 |
| 7 Current studies in cataract research | Monnier | 2/4/20 |
| 8 Protein trafficking in photoreceptor cells and ciliopathies | Imanishi | 2/6/20 |
| 9 Approaches to study protein trafficking in the retina | Imanishi | 2/11/20 |
| 10 Journal club | Park | 2/13/20 |
| 11 Journal club | Park | 2/18/20 |
| 12 Retinoid metabolism and retinal disease | Golczak | 2/20/20 |
| 13 | | |
