### Schubert Center Receives Continued Support from the George Gund Foundation

The Schubert Center is delighted to announce that the George Gund Foundation has awarded continued funding to the Child Policy Initiative (CPI) through 2009. Established in 2004 with the Foundation's support, CPI has enhanced the connections among research, education, and child policy at Case Western Reserve University, mobilizing faculty interest and participation in policy-related activities, creating opportunities for increased contact between researchers and the policy community, and adding a child policy component to undergraduate education.
